

## Internal parameters in Buckets

### Internal 2x1 parameters: Histogram

1. Number of parameters in buckets of **offset = 0.1**

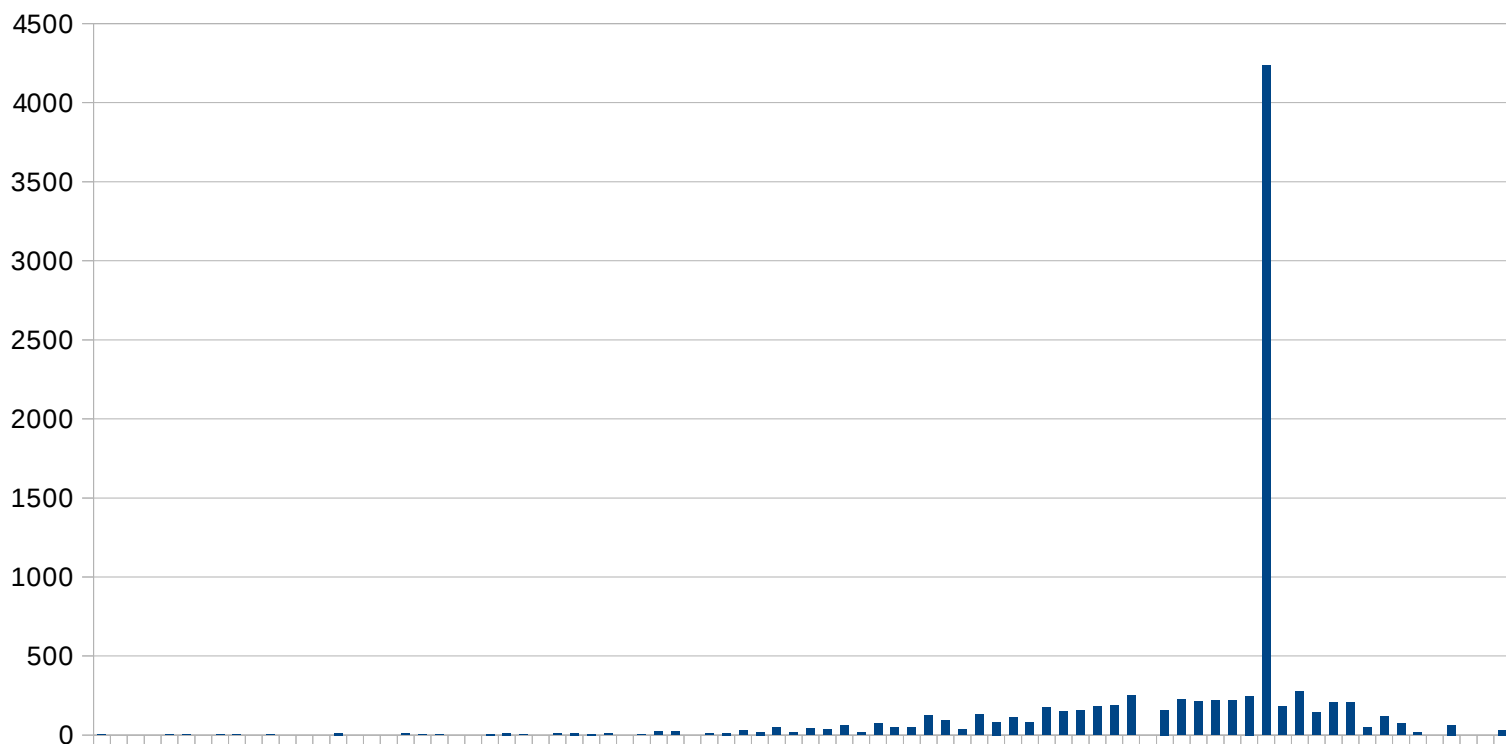

2. Number of parameters in buckets of **offset = 0.2** (x-axis are buckets, y-axis is the #params)

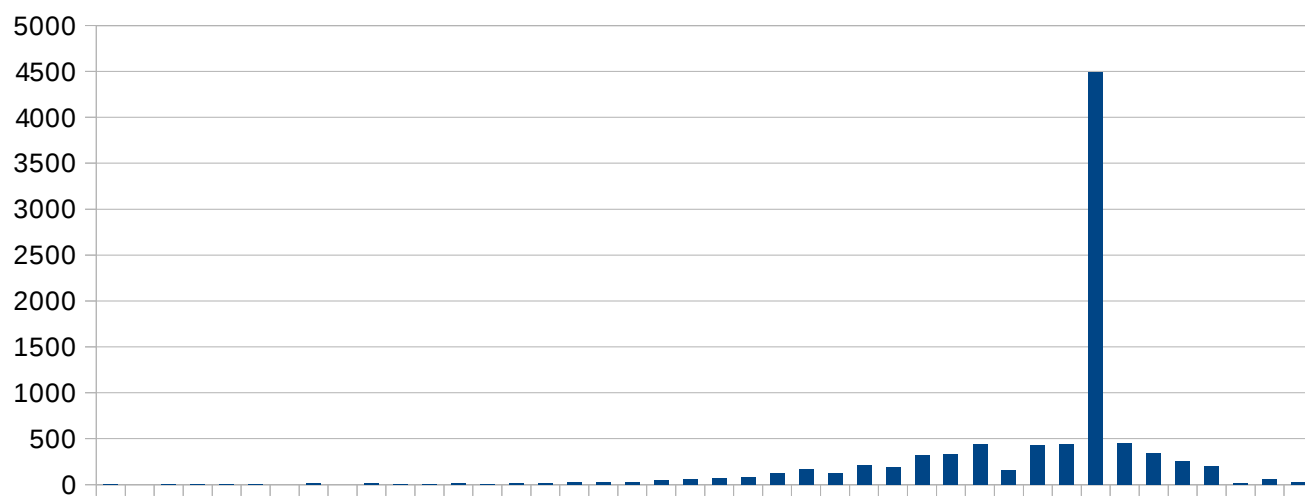

## Internal 2x2 Parameters: Histograms

1. Buckets of offset = 0.1 (x-axis are buckets, y-axis is the #params)

2. Offset = 0.2 (x-axis are buckets, y-axis is the #params)

**3. Offset = 0.5 (x-axis are buckets, y-axis is the #params)**
